

Graduate Nurse/Midwifery Program

Developing outstanding nurses and midwives for the future.

GV Health's Graduate Nurse Program provides a supportive environment helping the learner make the transition from student to professional.

The program offers a range of experiences and opportunities to consolidate skills and knowledge while encouraging self-directed learning and reflective practice.

Participants become part of a team where you can practice safely and know where to go for support and answers.

At GV Health we offer general rotations in medical ward, surgical ward, sub acute/palliative care ward, Tatura and Waranga Campus. We also offer at least one specialty rotation in an area of your choice, these include: Emergency Department, Critical care unit, Haemodialysis, Oncology, Mental Health, Midwifery (BN/BM Graduates only), Paediatric Unit, Special Care Nursery, Theatre and Day Procedure Unit, District Nursing Service and Radiology.

Advantages of our program

- Three four month rotations
- Clinical Area Educators and Clinical support nurses in each specific area
- Preceptors in each clinical area
- Progress review during each rotation with clinical appraisals providing feedback and document progress
- Study days that are personalized to the group
- Supernumerary time at commencement of each rotation
