

Graduate Perioperative Nurse Program

Developing outstanding perioperative nurses for the future.

At GV Health, we provide a range of perioperative services including general surgery, orthopaedic, gynaecology, obstetrics, ENT, urology, dental, endoscopy, paediatrics and emergency surgery.

Our surgical department currently has four operating suites, with redevelopment currently underway for a three additional theatres, expected to open late 2022.

Graduate Program

- Experience different roles; anaesthetics, scrubs/scout and PACU
- Our aim is that each graduate has transferrable skills that they can take to other areas of their placements within GV Health or elsewhere.

Post-Graduate Program

- Partnership with Deakin University
- Two supported positions
- Supported by our Clinical Area Educator, Clinical Support Nurse Senior Staff
- The Master of Nursing Practice - Perioperative Nursing aims to prepare graduates to practice effectively at an advanced practice level in perioperative settings.
