Statements included in this position description are intended to reflect in general the duties and responsibilities of the position. It is not intended to be an exhaustive list of responsibilities, duties and skills required. GV Health may alter the duties of this position description if and when the need arises. Any such changes will be made in consultation with the affected employee(s).

POSITION SUMMARY

The Health Information Manager – Mental Health (HIM MH) plays a critical role in the effective governance and management of health information across the Goulburn Valley Area Mental Health Service (GVAMHS). The position provides data, reporting and clinical record operational support to clinical and administrative teams across all GVAMHS settings, including community, inpatient, residential, emergency, and specialist services.

The role has responsibility for CMI coordination, data entry oversight, report development, and submission of statutory and organisational reporting within the Mental Health portfolio of Information Services. The HIM - MH contributes to the efficient management of health information, client data, and reporting processes across GV Health.

A key focus of this role is maintaining the integrity of clinical data and service activity. The HIM- MH supports GVAMHS through major sector reforms and service developments, including the evolution of Activity Based Funding reporting and ongoing mental health system reform.

The role works under the direction of the Manager, Data and Reporting to ensure adequate staffing and staff capability across the department. A major focus is on performance target development and acts as the first point of support for the MH HIS staff group. The HIM- MH is responsible for identifying issues requiring escalation and participates in staff performance management and disciplinary processes.

Additional responsibilities include managing mental health records across scanned, electronic, and paper systems; ensuring compliance with relevant legislation, including the Mental Health and Wellbeing Act 2022; statutory reporting; and administering the CMI/ODS system. As GVAMHS operates across multiple sites, the role may be based at or travel between sites as required.

This position amongst others is responsible for promoting GV Health as a quality regional health service provider.

RESPONSIBILITIES AND DUTIES

The following duties are inclusive of but not limited to:

Management

- Coordinate daily staffing to ensure appropriate skill coverage.
- Oversee payroll and recruitment functions.
- Conduct annual performance reviews and ensure compliance with safety, legislative and employment requirements.
- Identify staff development needs, support competency growth and ensure completion of mandatory training.
- Coordinate staff training and coverage for designated roles.
- Develop and deliver orientation programs for new staff – clinical and administrative as required.
- Maintain effective administrative processes for the MH HIS team that align with organisational goals and procedures.
- Support the resolution of staffing issues.
- Assist with student placements as required.
- Chair and participate in relevant staff meetings.
- Represent the team in organisational meetings.

Data Integrity and Reporting

- Ensure timely and accurate mental health data entry seven days a week, including episodes of care, phase of care and outcomes.
- Collaborate with the Data Reporting team (Information Services) to strengthen data quality and governance.
- Develop processes for ongoing data integrity review and reporting.
- Ensure CMI data aligns with PAS (VAED), clinical record episodes and clinical documentation.
- Work with Information Services Management to enhance user table maintenance and access controls.
- Respond to information requests and ensure appropriate registers and logs are maintained.

Training and Development

- Develop training programs for data entry and data integrity.
- Ensure compliance with Department of Health Program Management Circulars (PMCs).
- Maintain continuous quality improvement processes for mental health data.
- Provide induction and periodic training on data collection and reporting requirements for clinical and administrative staff.

Clinical Record Management

- Work with HIM Leadership to ensure consistent scanning and clinical record processes.
- Collaborate with HIM - Forms on medical record form design to ensure compliance with legislation and local requirements.
- Develop MH specific orientation and training in clinical record processes and requirements

Quality and Reporting

- Prepare and circulate required Key Performance Indicators (KPI) reports and other reporting deliverables.
- Provide high-quality, customer-focused services that support best practice.
- Contribute to clinical effectiveness through accurate systems, information and services.
- Participate in performance improvement activities, including feedback and annual reviews.
- Support testing and implementation of new or upgraded software.
- Maintain strong working relationships across teams and disciplines.
