

Position Description

Position Title:	Physiotherapist – Grade 2
Reports to:	Coordinator Chronic Pain Clinic
Department:	Chronic Pain Clinic
Directorate:	Health independence Programs
Cost centre:	F0602
Code & classification:	Physiotherapist Grade 2 (VB1 – VB4)
Employment conditions:	Allied Health professionals (Victorian Public Sector) (Single Interest Employers) Enterprise Agreement 2021-2026 and its successors and GV Health Policies and Procedures (and as varied from time to time)

GV Health is an equal opportunity employer and continually strives to build a diverse, equitable and inclusive workforce that reflects our community. We encourage applications from people of all backgrounds.

Statements included in this position description are intended to reflect in general the duties and responsibilities of the position. It is not intended to be an exhaustive list of responsibilities, duties and skills required. GV Health may alter the duties of this position description if and when the need arises. Any such changes will be made in consultation with the affected employee(s).

POSITION SUMMARY

The Physiotherapist (PT) is responsible for providing their clinical expertise to CPC clients and to the multidisciplinary team.

The PT will assess, plan, recommend and apply current, individualised and evidence based therapeutic interventions for clients with complex, chronic pain. The delivery of which will occur in the setting of one-on-one client consultations in the clinic, and / or as well as in the facilitation of group programs.

The PT will collaborate with the multidisciplinary team; contribute to Case Conference and client's Agreed Care Planning and Case Review processes. The PT, as part of the multidisciplinary team, will also participate in service planning and development and quality activities.

Chronic Pain is a specialty clinic within the Health Independence Program: Subacute Ambulatory Care Services (SACS) stream.

SACS programs are person-focussed and operate within an integrated service delivery model utilising interdisciplinary team-based care with an emphasis on flexible service delivery. They aim to facilitate improved health outcomes and enable a better client journey across the care continuum. SACS includes Community Rehabilitation Centre (CRC), Geriatric Evaluation and Management in the Home (GEMITH), Victorian Paediatric Rehabilitation Program (VPRS), and the specialist clinics: CDAMS, Chronic Pain Management, Continence, Falls and Balance. The role will also liaise with community-based services to ensure a smooth transition and discharge process for clients moving from outpatient to community settings. The specialty clinics provide specialised assessment & recommendations for management within a model of care which operates within the Victorian Subacute Service Capability Framework (2009).

The CPC provides clinical assessment and where indicated, provision of treatment on a time-limited basis, for clients experiencing prolonged pain and moderate disability and for those who have entrenched chronic pain and high levels of disability. The aim is to reduce the risk of long-term disability, enable clients to gain an

improved ability to self-manage their condition and develop strong links to support continuing management in a primary care setting following discharge from a specialist service.

The CPC clinicians at GV Health include a medical specialist, psychologist, occupational therapist, physiotherapist, registered nurse, enrolled nurse, exercise physiologist, dietitian and allied health assistant.

The position supports GV Health's clinical governance framework in the quality and safety domains of clinical effectiveness, risk management, effective workforce and consumer participation, ensuring optimal outcomes for patients, their carers and community

RESPONSIBILITIES AND DUTIES

The following duties are inclusive of but not limited to the following:

In collaboration with the Coordinator of the Chronic Pain Clinic and the multidisciplinary team:

- Work independently (as part of the multidisciplinary team), within available resources and timeframes.
- Provide high quality (discipline-specific) clinical services across clients' care trajectory: assessment, care planning, therapy (including self-management skill building), review and discharge planning, aiming to maximise clients' functional outcomes and assist them to meet their goals. The PTs primary tasks are:
 - Pain Education
 - Subjective and objective examination
 - Establishment of home programs e.g. where appropriate with desensitisation techniques, mirror therapy, body mapping / laterality retraining, imagined movements
 - Exercise prescription
 - Modification of exercise programs
 - Identifying fear in clients attempting exercise and focus on functional, goal orientated movements
 - Use of equipment e.g. tape, bracing, TENS etc as required.
 - Referral onto other services as appropriate.
- Work collaboratively with the multidisciplinary team and external service providers to offer specialist PT liaison, consultation, education and clinical practice, towards the goals of optimum client assessment and person-centred care planning and delivery.
- Ensure that all practice is within the philosophy, intent and standards prescribed by the relevant allied health professional body clinical and ethical guidelines and that practices are consistent with policies, procedures and evidenced-based research.
- Establish and maintain networks with local, regional and state-wide PTs, especially those practicing in pain services.
- Other tasks as directed by the CPC Clinical Coordinator.
- Supervision of AHA's and being available to help other Physiotherapists with clients active in the CPC program.
- Provide a high quality service to internal customers and consumers that reflects best practice and adds value to GV Health
- Assist the organisation in achieving clinical effectiveness by providing the appropriate systems, information or services to clinical areas

KEY SELECTION CRITERIA

Formal Qualification(s) and Required Registration(s):

- Approved tertiary qualification and current registration with the Australian Health Practitioner Regulation Agency as a Physiotherapist.

Essential:

- Broad knowledge of Physiotherapy management and the clinical evidence for those with musculoskeletal, rheumatologic, chronic conditions, and acute and chronic pain management
- Demonstrated knowledge and experience in the planning, implementation and evaluation of current Physiotherapy practice for management of patients with chronic/complex conditions and adaptation of exercise for people with a disability.
- An ability to work collaboratively as an individual practitioner within a multidisciplinary team environment.
- Experience in developing & delivering group therapy and education programs.
- Proven organisational and time management skills with an ability to prioritise and manage a diverse caseload.
- Excellent interpersonal, written and verbal communication skills, including computer literacy and the ability to produce well written reports.
- Current driver's license or eligibility for one.
