

Position Description

Position Title:	Medical Imaging Technologist
Reports to:	Chief Medical Imaging Technologist
Department:	Medical Imaging
Directorate:	Clinical Operations
Cost centre:	Y2042
Code & classification:	Grade 1 (AF4 – AF8)
Employment conditions:	Allied Health Professionals (Victorian Public Health Sector) Single Interest Enterprise Agreement 2021 – 2026 and its successors, and GV Health Policies and Procedures (and as varied from time to time)

GV Health is an equal opportunity employer and continually strives to build a diverse, equitable and inclusive workforce that reflects our community. We encourage applications from people of all backgrounds.

Statements included in this position description are intended to reflect in general the duties and responsibilities of the position. It is not intended to be an exhaustive list of responsibilities, duties and skills required. GV Health may alter the duties of this position description if and when the need arises. Any such changes will be made in consultation with the affected employee(s).

POSITION SUMMARY

The Medical Imaging Technologist reports directly to the Chief Medical Imaging Technologist within the Medical Imaging team. The Medical Imaging Department manages the radiology services. As a member of a team dedicated to the provision of high-quality medical imaging services, the Grade Medical Imaging Technologist is expected to:

-
- Provide excellent customer service.
 - Take responsibility for conducting diagnostic imaging examinations and producing diagnostic images in line with the accepted policies/procedures and clinical practice guidelines of GV Health.
 - Coordinate and prioritise patients in a dynamic hospital environment, in consultation with other health care providers, to optimise workload and patient flow to ensure patient-centred care.
 - Constructively address conflicts to maintain a safe environment for patients, staff and visitors, escalating for advice when required.
 - Demonstrate commitment to patient safety as evidenced through awareness of changes in patient condition, effective communication and use of appropriate equipment and aids.
 - Adhere to the ALARA principles and modify techniques depending on patient presentation.
 - Recognise confidential information and adhere to the policies, processes and legislation governing updating, correcting and sharing of that information.
 - Discuss patient decisions and concerns to develop trust and comfort in the imaging setting, respecting the patients right to make decisions regarding their care.
 - Respect the beliefs and cultural variances of patients and co-workers to ensure equity in access to services and foster workplace diversity
 - Participate in all shifts at all sites in order to meet service requirements.
 - Use personalised radiopaque set of x-ray markers with initials (where applicable).

- Assist students and Intern Medical Imaging Technologists with clinical practice, under the direction of the Tutor Medical Imaging Technologist.

RESPONSIBILITIES AND DUTIES

The following duties are inclusive of but not limited to the following:

- Maintain awareness of scope of practice and personal limitations, consulting with more experienced and/or senior employees when situations exceed skills.
- Be actively involved in the Medical Imaging team, working alongside and supporting other staff.
- Continuously review existing practices and discuss proposed improvements and goals with the Modality Supervisors to enhance performance.
- Comply with Medical Imaging and GV Health protocols and procedures.
- Assist in quality assurance activities and provide feedback to Modality Supervisors / Quality Officer.
- Assist with clinical supervision of students and interns within the clinical environment.
- Assist in the coordination of imaging activities and workflow in collaboration with the Tutor Medical Imaging Technologist.
- Report equipment, consumable or work practice issues to the Modality Supervisor.
- Communicate services, equipment or work practice problems to a line manager for review and participate in improvement processes
- Adhere to Workplace Health and Safety requirements and immediately alert a line manager of concerns.
- Immediate notification of malfunction or necessary maintenance to the Modality Supervisor.
- Accurate and prompt coding and completion of examinations, including transfer to Picture Archiving and Communication System.
- Maximise patient throughput by efficient use of resources through efficient management of time and resources.
- Participate in shift rosters as required across all sites (excluding night shifts and on-call).
- Provide a high-quality service to internal customers and consumers that reflects best practice and adds value to GV Health.
- Assist the organisation in achieving clinical effectiveness by providing the appropriate systems, information or services to clinical areas.
- Provide quality and safe clinical care for consumers
- Ensure consumers, families/representatives or carers are provided with timely information and are involved in decision making about their care planning and treatment.
- Accept accountability for own actions and seek guidance when a situation exceeds experience and/or knowledge.
- Uphold and protect consumer rights, maintain strict confidentiality and continually practice to the principles of open disclosure.
- Comply with best practice healthcare standards, legislation, and GV Health's Clinical Governance Framework and clinical practice guidelines.
- Reply to consumer feedback and complaints in a timely and compassionate manner to ensure that issues are quickly resolved and quality, safe clinical care is provided.
- Maintain accurate and current clinical records ensuring documentation meets professional and legal standards.
- Promptly report vital consumer observations that are outside the normal range as per clinical guidelines.

- Demonstrate a patient centred approach by attending to patients as promptly as possible and responding to their concerns.
- Facilitate hospital patient flow between Medical Imaging, the wards and the Emergency Department through efficient and effective management of own time.
- Develop and maintain collaborative relationships with all disciplines
- Collaborate and communicate with all members of the health care team to achieve desired consumer outcomes
- Respect the decisions and actions of others
- Contribute to interdisciplinary team meetings and clinical education sessions to facilitate consumer care goals.
- Support and participate in evidence-based programs to evaluate and improve the quality of consumer care and outcomes
- Maintain current knowledge of clinical practice
- Actively participate in identifying where improvements can be made to the quality of consumer care
- Participate in clinical audits, research, process redesign and accreditation against healthcare standards to ensure ongoing clinical practice improvement and the quality of consumer care.
- Commit to ongoing professional development of self, other employees and the profession
- Ensure maintenance of credentials and work practices that reflect the agreed scope of practice.
- Engage in ongoing professional development and skills expansion through participation in industry relevant training activities.
- Complete mandatory training as defined by GV Health.
- Seek feedback, set goals and participate in annual performance reviews to broaden clinical competency.
- Practice self-reflection to develop greater self-awareness and situational responses.
- Support the development of others by assisting students junior and new colleagues with orientation and clinical supervision.
- Participate in committees and professional groups and disseminate relevant information to other health care professionals as delegated.

QUALITY, SAFETY, RISK and IMPROVEMENT

- Maintain an understanding of individual responsibility for consumer safety, quality and risk and adhere to the relevant policies, procedures and guidelines.
- Maintain a safe working environment for yourself, your colleagues and members of the public.
- Identify, report and manage risks and ensure actions are taken to prevent and minimise harm to consumers and the GV Health workforce.
- Contribute to organisational quality and safety initiatives.
- Minimise the risk of infection to consumers, residents, employees, visitors, contractors and the general public.
- Comply with requirements of the National Safety and Quality Health Service Standards and other relevant standards, regulations and legislative requirements.
- Report incidents to the Modality Supervisor promptly.
